FALL 1960, and SPRING 1961

PLEASE NOTE: Enclosed is a convenient order form. Indicate quantities, shipment date desired, etc., and use the PREPAID postage fold-over arrangement. All orders will be acknowledged promptly.

PRICES, TERMS, and CONDITIONS OF SALE: This catalog supersedes and cancels all previously published lists and prices. Terms are 2% 10 days, net 30 days. All accounts are due 30 days from date of invoice. Cash discounts allowed only when prior balance is fully settled. Interest at 6% charged on past-due accounts. Credit will be extended to new accounts, upon receiving satisfactory trade references and allowing sufficient time for investigation.

SHIPPING, WARRANTY, AND CLAIMS: Every order accepted only with definite shipping instructions. Our plants warranted to be true to name. Also, nursery stock when shipped warranted to be in good, healthy condition for transplanting or resale.

We sell under the standard form Nurserymen's Non-Warranty Clause, which reads: "We give no warranty, expressed or implied as to description, quality, productiveness, or any other matter, of any nursery stock we sell." We cannot accept any responsibility for any guarantee our customers give to their customers or any governmental department, municipality, or agency. All shipments are at the risk of the purchaser after being delivered to carrier in good condition. Any claims whatever must be made within 20 days after receipt of nursery stock. All quotations and offers are made for immediate acceptance and subject to stock being unsold upon receipt of order.

This catalog establishes wholesale price basis, and is intended only for the trade and licensed dealers.

Delivery of representative orders can be arranged VIA truck or semi-trailer. This rapid, frequent trucking permits you to operate with inventory closely related to your week-to-week sales, and means more "turn-over" of your stock. Ask for more facts!

**TRUCK SHIPPING,

BED-RUN TAXUS LINERS

5 Year Twice Transplanted

This group of Taxus Bed-Liners are offered at "bed-run" pricing, to pass along a more attractive cost that becomes permissible through field/labor savings. All plants are 5-year material, trimmed regularly.

BED-RUN TAXUS LINERS...

IMPORTANT NOTE: We urge any nurseryman interested in a substantial quantity from this group of Taxus bed-liners to plan, if possible, a personal visit to Dundee. Inspect these Taxus growing beds....Seeing-and-comparing will prove most convincing to you!

We will also gladly arrange representative samples, prior to shipping your order, if you desire such samples.

MINIMUM ORDER from this group of bed-liners is 500, of any one variety.

HEAVY BEDLINERS

Note: The QUALITY of our Heavy Bed-Liners must not be confused, nor compared, to much lighter plants, obviously available at what appears to be a lesser cost. These Hill's LINERS are heavy, trimmed transplants. We will gladly send representative samples (upon request) indicative of the Bed-liners that we would ship to fill your orders.

Bed-liner transplants sold in multiples of 10 only. 30 of the same variety and size at 100 rate. 250 of same variety and size at 1000 rate.

DUNDEE-QUALITY JUNIPER GRAFTS (PRE-STAKED)

THEY . . . GROW BETTER . . . GROW BIGGER

Hill's openly invites comparison of their superior quality Juniper Grafts with all similar products advertised "just as good." Hill's has always SET the standards.

AVAILABLE FOR SHIPMENT APPROXIMATELY MAY 1, 1961

AMES JUNIPER

(*Juniperus Chi. Ames*)

A broad, conical upright juniper with sharp, blue-gray foliage. Mature height 4' to 5'. Prefers sunny, exposed location. Very hardy selection made at Iowa State College in 1945.

BLUE HAVEN

(*Jun. Scop. Blue Haven*)

An attractive compact, easily maintained Silvery blue Pyramidal Juniper. Their average height is 8'-10' and will reach this growth more rapidly than most Junipers.

CANAERT JUNIPER

(*Jun. Virginiana Canaerti*)

Best known of the upright, green junipers. Very hardy and good winter color. Small, bright blue berries in the Fall that attract birds. Reaches 7' or 8' height; 3' width. Likes full sun or very light shade.

WELCHI JUNIPER

(*Jun. Scop. Welchi*)

Narrow, columnar compact growth habit. Has repellent bluish-green color; becomes quite silvery in Spring. Prefers sun and dry well-drained soil. Needs minimum pruning. Thrives in northern and western geography.

DUNDEE JUNIPER

(*Jun. Virginiana Hillii*)

Favorite cone shaped upright juniper that reaches 7' to 8'. Fast growing in fully exposed locations. Handsome blue Summer color; plum color in Winter. Very hardy. Most used for entrance and accent plantings. A HILL introduction.

HILLSPIRE JUNIPER

(*Jun. Virginiana Cupressifolia*)

Smoother and more formal than Canaert juniper. Fast growing, bright green upright that will reach 6' or 7' height quickly and with minimum trimming. Sunny locations best.

IOWA JUNIPER

(*Jun. Chi. Iowa*)

Iowa Juniper is another excellent selection of the Rust Apple Disease Free Chinese Juniper selections made at Iowa State College. Attractive irregular upright growth to 10'. Heavy, bluish foliage. Like sun best.

PATHFINDER JUNIPER

(*Jun. Scop. Pathfinder*)

Showy, upright, tight-growing evergreen. Foliage has bluish-gray color that always makes this tree a desired ornamental. Adapts to dry soils. Likes low humidity climates, whether warm or cold areas. Does best in sun.

MANEY JUNIPER

(*Juniperus Chinensis Maney*)

This is a dwarf, semi-upright tree with grey-green foliage. Good in full sun or partial shade, and especially hardy in cold climates. This tree shears well into a globe or pyramidal form, growing to an ultimate height of 4' to 5'.

MOUNTBATTEN JUNIPER

(*Jun. Chi. Mountbatten*)

Very smooth, symmetrical upright plant with rich blue-gray needles. Thrives in sun or light shade. This new plant is a Canadian introduction where it is known for its hardiness. Ultimate height 8' to 10'.

SILVER OR BLUE CEDAR

(*Jun. Virginiana Glauca*)

Bright blue upright juniper of graceful, open habit. Very effective against the modern redwood type homes. Reaches 7' or 8'. Best in sunny locations. Needs annual trimming if formal effect is desired.

SILVER GLOW JUNIPER

(*Jun. Scop. Hillii*)

Has glowing foliage of intense silver-blue color. Broad, pyramidal habit of growth. Requires sun, likes dry soil conditions. An excellent specimen-type evergreen.

EVERGREEN SPECIALISTS

LARGEST GROWERS IN AMERICA

Page 13

LILACS

These are OWN-root grown (not grafted) better quality Lilacs, that your nursery can transplant and be assured of vigorous fast-growth; and expect excellent finished plants. Own-root Lilacs have heavier branching, larger foliage, root system more fibrous. Less likely to "freeze-out". No heavy stump growth at soil level. These Lilacs are 3-year field grown; grade-sized to AAN standards.

<u>PETER HARRISON</u>	- Rose Pink		

**Protects Your Valuable Plant Material
Against Damaging Moisture Loss
in Hot and Cold Weather.**

What WILT-PRUF IS . . . WILT-PRUF is a plastic latex liquid. When plant material is sprayed or dipped in WILT-PRUF, it forms a colorless film which retards normal moisture loss. In lining out, in transplanting, in late-season planting, and under certain adverse weather conditions, this protection against drying out prevents the loss of valuable plant material and eliminates the need for costly replacements. (In due time, the WILT-PRUF coating wears away.)

Protection in Summer . . . WILT-PRUF coating enables plants to retain their vital moisture while new moisture-absorbing roots are being formed in their new locations. This prevents the most common cause of transplanting loss.

Protection in Winter . . . Winter sun and wind promote evaporation while the frozen ground prevents the intake of additional moisture. WILT-PRUF winter coating retards evaporation, keeps plants healthier and more beautiful.

Protection Against Pests . . . When applied with WILT-PRUF, insecticides and fungicides stick to plant surfaces longer. The number of applications are greatly reduced, saving material, time and labor. Always add WILT-PRUF last.

Protection in Transit . . . Shipments of nursery stock, and other ornamental plant material, arrive at their destinations looking fresher and more attractive when protected with WILT-PRUF.

Preserves Christmas Trees and Greens . . . Christmas Trees sprayed with WILT-PRUF retain their needles, look greener and fresher too.

How to Handle WILT-PRUF . . . WILT-PRUF comes in concentrated form. For protecting plants against drying out, mix 1 part WILT-PRUF with 4 to 9 parts water, according to directions on label. As a carrier for pesticides use 1 pint WILT-PRUF to 100 gallons of water. WILT-PRUF may be used in any spray equipment except gear pumps with close tolerances.

Sunbeam Rain King

AUTOMATIC TRAVELING SPRINKLERS

EXTENDED COLUMN SPRINKLER

- Recommended for Both Field and Container Growing Methods
- Ideal for Sprinkling and Fertilizing
- Especially Designed for Nursery Operations

- Sprinkles any area up to 125 feet . . . shuts off automatically.
- Sprinkles areas 5 to 50 feet wide as it travels. Each plant receives substantially the same amount of water. This contributes to uniform growth.
- A complete automatic method of irrigation at a fraction of the cost of overhead or underground sprinkling systems.
